SAFE-T-LOCK

Cures on black iron, galvanized and S.S. pipe as well as monel and on other inactive metals. TPS provides an excellent seal on tapered pipe joints, and when fully cured, locks joints against vibration, forming a non-shrinking seal against leaks to the burst strength rating of the pipe. Apply Primer on threads first then apply a small amount of TPS.

Part#	Description	Price
26542	TPS Pipe Sealant	\$118.26
19066	Primer	\$52.03
