SWITCH PRO

SwitchPro is a simple-to-use product controller with advanced technology that teams up with the broad capabilities of the Envizio-Pro or ViperPro to create a state-of-the-art control system. SwitchPro eliminates consoles from the cab providing more room with less clutter by combining the technology of several devices into one easy-to-use console including: single product control (liquid or NH3), 10 boom section control, a speed sense control, and AccuBoom section control.

Raven AccuBoom kits provide automatic boom section control for sprayers and spreaders. AccuBoom kits have customized cables to allow easy installation with minimal effort and hassle. All kits have been designed using actual machines. This means cables will be the right length and will have the correct connections for your application. It also means you must make sure you have correctly identified the make and model of your sprayer or spreader to avoid issues with incorrect cables. ****ALL 3 REQUIRED FOR ACCUBOOM****
