

VIPER® 4

The Viper 4 is a powerful, fourth generation Viper field computer. Yet it's also the first in a new generation of field computers powered by the new Raven Operating Software, which integrates Raven's full line of products into one connected platform.

Designed to work with equipment of any brand, the Viper 4 is easy to use, requiring fewer touches and providing greater efficiency. It's a highly advanced field computer with intuitive controls, improved ease of use and extraordinary data management capabilities. And for your operation, this means increased efficiency, productivity and profitability.

FEATURES INCLUDE:

- Swiping feature
- Horizontal or vertical orientation
- Sleek design with 12.1" LED backlit display and state-of-the-art rugged magnesium alloy enclosure
- Dustproof for tough environments
- 2 USB ports
- Integrated, fully scalable GPS receiver
- Customization by user and machine
- An abundance of storage capacity
- Responsive touchscreen and intuitive, tablet-like interface
- 4 camera inputs for monitoring bin levels, etc.
- Ethernet port for Slingshot®
- CANbus ports
