

QUICK-TACH SIDEMOUNT

Mainframe, Cradles and Tanks

- Cut-A-Way Tanks For Better Vision
- Easy To Mount
- Rugged Square Tubing Frame
- 12 Gauge Cradles

Easy to handle and install. Mainframe will not interfere with normal farm operations, may be left on tractor year round. Each saddle assembly slides into mainframe independent of each other. Available in 150 Gallon Applicator Tank, 200 or 250 Gallon Cut-A-Way Tanks. Black is the standard color for all frames. Tanks are available in White or Yellow, please specify.

Pictured Top Left: SMLC-QT-200 on a 50 Series John Deere Front Wheel Assist Tractor. Our regular unit with 4 Wheel Drive Center Section and Hanger Brackets for this tractor.
